

Custom plastic / single-use vessel - 10 L default

Local source PDF | preset custom-single-use | compiled 10 September 2026

This PDF is stored inside the GitHub project and records the evidence used by the simulator. It is not a copied vendor brochure or manual. The official manufacturer references below remain the authoritative originals.

Manufacturer: Custom

Product-contact material: Plastic / single-use

Working volume: 2 L to 10 L

Nominal vessel or bag size: 10 L

Simulation profile: mammalian

Evidence status: Custom simulator template - no manufacturer source

Original manufacturer references

No manufacturer document applies to this custom template.

Evidence basis

Volume: The default 2-10 L range is an editable simulator starting point, not a vendor specification.

Material: Material class follows the selected custom template.

- All dimensions and operating limits should be replaced with the actual vessel data before simulation.

Record note

This source PDF is paired with the detailed HTML provenance record in the same repository. Simulator-specific defaults and derived assumptions are listed there.

Copyright and trademarks in the linked manufacturer documentation remain with the respective vendor.
