

Cytiva Xcellerex™ X-platform 200 L - approximately 40-200 L working volume

Local source PDF | preset cytiva-x-platform-200 | compiled 10 September 2026

This PDF is stored inside the GitHub project and records the evidence used by the simulator. It is not a copied vendor brochure or manual. The official manufacturer references below remain the authoritative originals.

Manufacturer: Cytiva

Product-contact material: Plastic / single-use

Working volume: 40 L to 200 L

Nominal vessel or bag size: 200 L

Simulation profile: mammalian

Evidence status: Official family evidence; range partly approximate

Original manufacturer references

1. Cytiva - Xcellerex X-platform information

Open official manufacturer source online

<https://info.cytivalifesciences.com/CY238166-nurture1.html>

Supports: X-platform 50 and 200 L family information.

Evidence basis

Volume: The nominal X-platform scale is source-supported. The minimum working volume follows the family turn-down used in the simulator and should be checked against the selected bag/configuration.

Material: Disposable single-use bag is the product-contact vessel.

- No additional note.

Record note

This source PDF is paired with the detailed HTML provenance record in the same repository. Simulator-specific defaults and derived assumptions are listed there.
