

Mobius(R) Breez Microbioreactor - 2.155 mL working volume

Local source PDF | preset merck-breez | compiled 10 September 2026

This PDF is stored inside the GitHub project and records the evidence used by the simulator. It is not a copied vendor brochure or manual. The official manufacturer references below remain the authoritative originals.

Manufacturer: Merck

Product-contact material: Plastic / single-use

Working volume: 2.155 mL to 2.155 mL

Nominal vessel or bag size: 2.155 mL

Simulation profile: microfluidic

Evidence status: Direct official product evidence

Original manufacturer references

1. Merck - Mobius Breez Microbioreactor

Open official manufacturer source online

https://www.merckmillipore.com/DE/en/product/Mobius-Breez-Microbioreactor%2CMM_NF-C262015

Supports: Working volume, cassette materials, perfusion format, fluid and gas connections.

Evidence basis

Volume: The 2.155 mL working volume is directly stated in official product information.

Material: Disposable multi-material polymer cassette; the local material class is simplified to plastic/single-use.

- This is a microfluidic perfusion system, not a conventional stirred tank. Mixing-related fields are model placeholders.

Record note

This source PDF is paired with the detailed HTML provenance record in the same repository. Simulator-specific defaults and derived assumptions are listed there.
